

Bird City - Green Lake

“Making our Communities Healthy for Birds... and People!”

Green Lake has been an officially-recognized Bird City since 2014. The annual renewal requires the fulfillment and documentation of several bird-related criteria. A full listing of these can be found on the Bird City Wisconsin website: <https://birdcitywisconsin.org/>

Bird City Wisconsin works hard to implement its mission:

To encourage all communities in Wisconsin to implement sound bird conservation practices by offering public recognition to those that succeed in (a) enhancing the environment for birds and (b) educating the public about the interactions between birds and people and about the contributions birds make to a healthy community.

Web links that provide useful information about BIRDS and their habitats:
