

PUBLIC NOTICE TO ALL CUSTOMERS OF THE CITY OF GREEN LAKE WATER UTILITY

The City of Green Lake Water Utility (Utility) has filed an application with the Public Service Commission of Wisconsin (Commission) to change its method of cost recovery for providing public fire protection (PFP) service. The Utility currently collects an annual amount of \$146,153 for providing PFP to the City of Green Lake (City). This cost covers the additional storage, pumping, and distribution required to provide the high flows and pressures needed to fight fires. Currently, the City collects a municipal PFP charge of \$146,153 from property taxes and pays this charge to the water utility. The Utility has requested Commission authorization to move from a municipal charge to 100 percent direct charges using the equivalent meters method, in accordance with Wis. Stat. Sec. 196.03(3)(b), which reads as follows:

196.03(3)(b). Unless the governing body of the city, village or town adopts a resolution providing that the city, village or town will pay the retail charges for the production, storage, transmission, sale and delivery or furnishing of water for public fire protection purposes that are not included in general service charges:

1. A public utility shall include the charges in the water utility bill of each customer of the public utility in the city, village or town.
2. A municipal utility may, in addition to including the charges in water utility bills under subd. 1., bill the charges to any person who meets all of the following conditions:
 - a. The person is not a customer of the municipal utility
 - b. The person owns land that is located in the city, village or town and in an area in which the municipal utility has an obligation to provide water for public fire protection. If the person owns 2 or more parcels that are adjacent to each other or divided only by a roadway or brook, creek, river, or stream, the municipality may bill the person for only one parcel.

This change in billing for PFP will allow for the collection of PFP charges from property owners who are not subject to property taxes. The Utility has decided to charge non-general service customers as defined in subd. 2. above.

If the request is granted, the water bill for an average residential customer with a $\frac{5}{8}$ -inch or $\frac{3}{4}$ -inch meter who uses 8,000 gallons of water per quarter will increase from \$67.11 to \$96.18, or 43.32 percent.

A public hearing on the application has been scheduled for Friday, December 5, 2025 at 10:00 a.m. This hearing has no physical location. Parties and Commission staff appear by Zoom. Parties and Commission staff may use the telephone connection as a backup or if no practicable internet connection exists. Members of the public attend by Zoom or by audio-only telephone connection.

Join Zoom over the internet at:
